CAREER SUMMARY

Recent graduate with excellent research , technical, and problem-solving skills. and a great command over the programming languages such as Core Java,SQL,Advanced Java,HTML,CSS. Detail-oriented and able to learn new concepts quickly.Eager to embark on fulfilling my career in the IT sector.

TECHNICAL SKILLS

- **Languages**: Core Java,Advanced Java,SQL, JavaScript, HTML,CSS,JSON,XML

- **Frameworks**: Collection, Stream API, Spring, Spring Boot, Hibernate, JDBC, JSP, Servlet, Rest API.

- **Tools**:Oracle SQL, MySQL,Postman,Git,VS Code, Eclipse

- **Server**: Apache Tomcat, GitHub, Maven.

EDUCATION BACKGROUND

Sant Gadge Baba Amravati University
Bachelor of Science(Microbiology)   *2019-2024*
Percentages:**78.15** %

HSC
Vivekananda Vidya Mandir, Hiwra Bk MH   *2018-2019*
Percentages:**56.92** %

SSC
Chhatrapati Shahu Maharaj Vidyalay , Pentakali MH   *2016-2017*
Percentages:**83.40** %

TRAINING

- **I have done Software Devlopment Course at Qspider's Training Institute Deccan,Pune**

PROJECTS

Food Order Management | *Hibernate With JAP,Servlet,JDBC,JSP,MySQL*

- The application is designed for manage the orders of customer, In This application there are 3 roles 1st is 'MANAGER' , 2nd Is 'STAFF' and 3rd Is 'CUSTOMER' . When the manager was login successfully he can add multiple item's in the menu card That Menu-card is visible to Customer and Staff. When the staff has login successfully he can take the order from the customer the order is saved in database . The total amount of the order is calculate automatically.if there any Offer it will be applied automatically
- In This Project I Have Designed
  1. Login Page
  2. Sign-up page
  3. Menu-Card page
  4. Order Page

Employee Management System | *Java,Spring,Spring Boot,Hibernate,JDBC,Postman,MySQL,Maven,Apache Tomcat,Lombok*

- This project is developed to manage the employee states like update the employee information,delete The employee, save the employee in the database, update particular information of the employee
- Developed using Java and its Frameworks i.e Hibernate,Spring Boot
- In this project i have did all the CRUD Operations and Purely deal with database
- Postman is used as a front-end and Tomcat server for deployment

HOBBIES

- Playing as Well as Watching Cricket
- Watching to a Movies
